A RUSH TO THE BALL...

We are the Nation's Risk Advisors

CISA leads national risk management for cyber and physical infrastructure

MISSION ESSENTIAL FUNCTIONS

INCIDENT MANAGEMENT:

Support management of physical, cyber and communications incidents in real time
Help mitigate impacts and reduce risks to critical systems

ANALYSIS:

Conduct analyses to:

- recognize threats and vulnerabilities
- identify countermeasures
- develop situational awareness
- understand risk

CAPACITY BUILDING:

Build capacity:

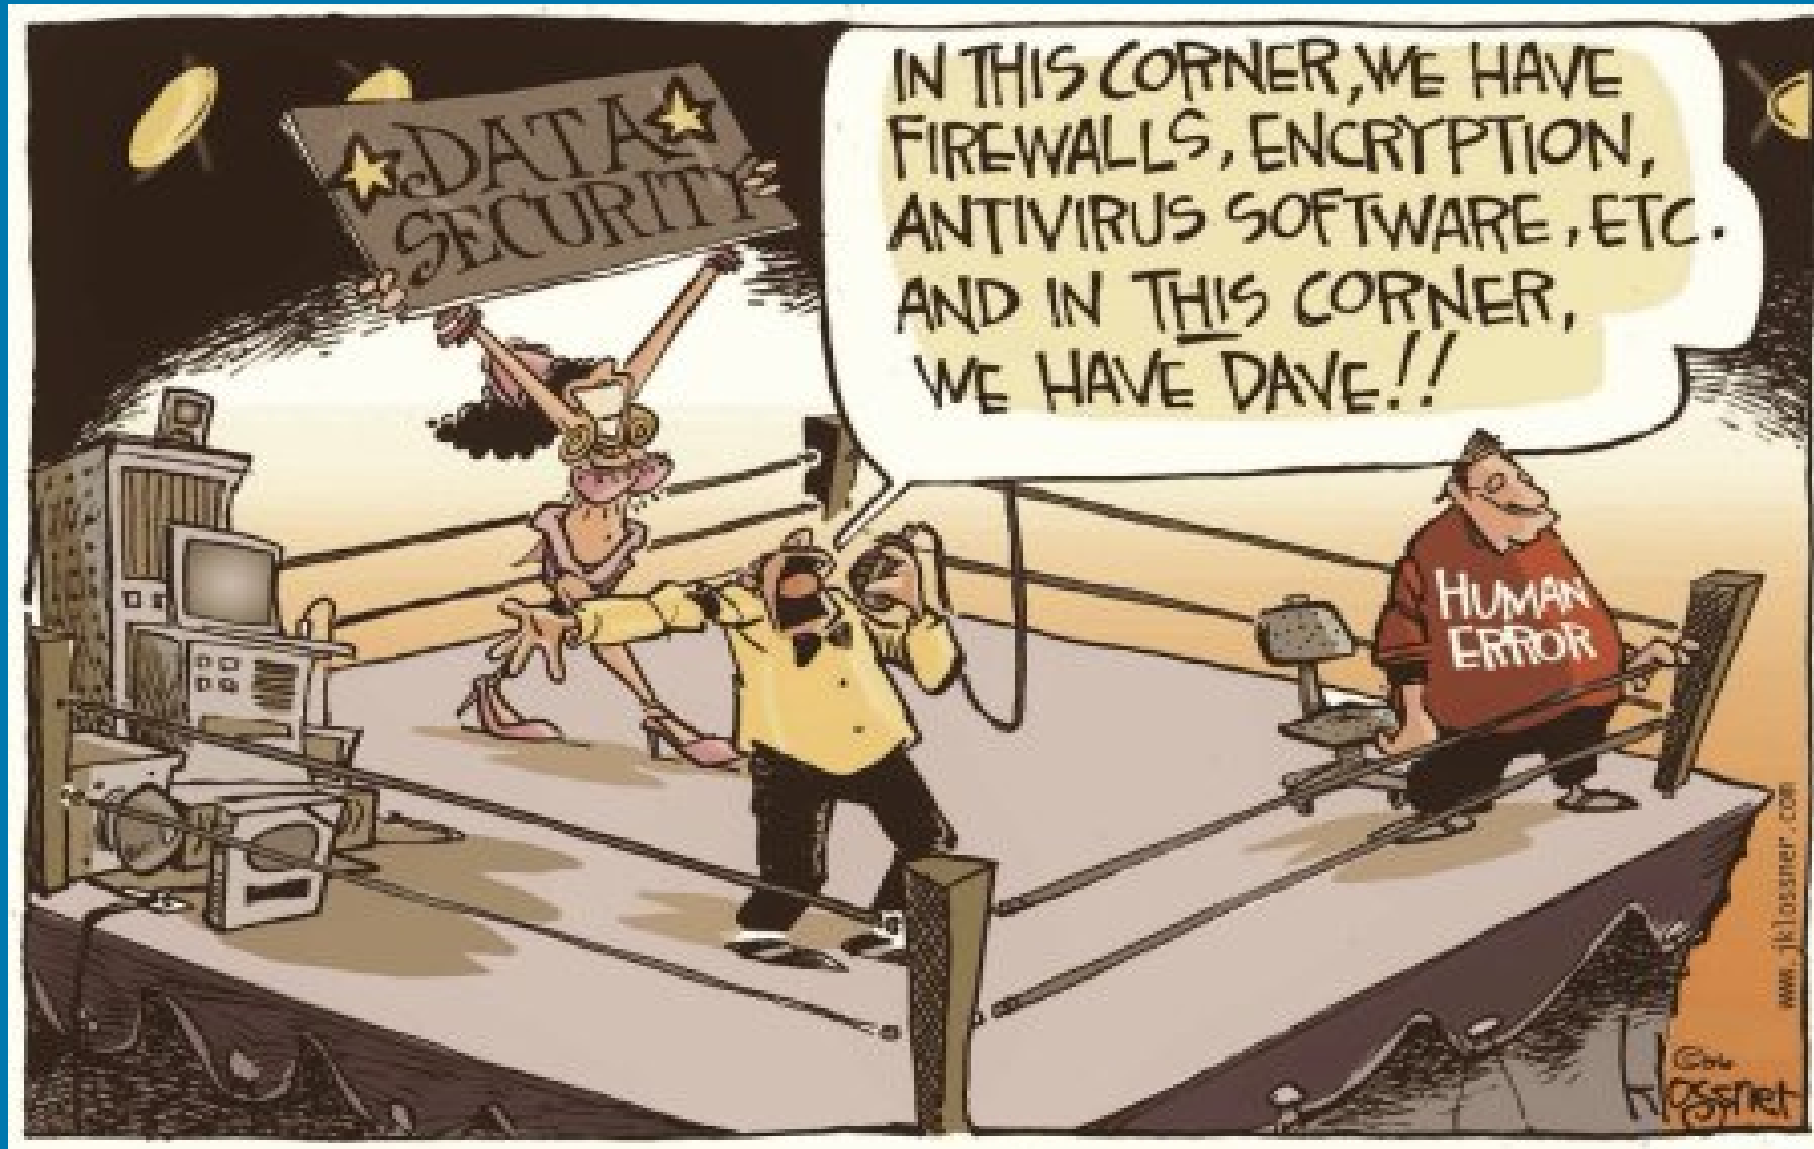

- across all levels of government & private sector
- to improve management of physical, cyber and communications risks

INFORMATION EXCHANGE:

Share information about physical, cyber and communications risks to support stakeholder decisions and actions
